Number \& Algebra

|  | Achievement Standard | Content Descriptor - the student will... | Term 1 | Term 2 | Term 3 | Term 4 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | By the end of Year 5 students solve simple problems involving the four operations using a range of strategies. They check the reasonableness of answers using estimation \& rounding. Students identify and describe factors and multiples. | Identify and describe factors and multiples of whole numbers and use them to solve problems |  |  |  |  |
|  |  | Use estimation and rounding to check the reasonableness of answers to calculations |  |  |  |  |
|  |  | Solve problems involving multiplication of large numbers by one or two-digit numbers using efficient mental, written strategies and appropriate digital technologies |  |  |  |  |
|  |  | Solve problems involving division by a one-digit number, including those that result in a remainder |  |  |  |  |
|  |  | Use efficient mental and written strategies and apply appropriate digital technologies to solve problems |  |  |  |  |
|  | By the end of Year 5 students order decimals and unit fractions and locate them on number lines. <br> They add and subtract fractions with the same denominator. | Compare and order common unit fractions and locate and represent them on a number line |  |  |  |  |
|  |  | Investigate strategies to solve problems involving addition and subtraction of fractions with the same denominator |  |  |  |  |
|  |  | Recognise that the number system can be extended beyond hundredths |  |  |  |  |
|  |  | Compare, order and represent decimals |  |  |  |  |
|  | By the end of Year 5 students explain plans for simple budgets | Create simple financial plans |  |  |  |  |
|  | By the end of Year 5 students continue patterns by adding \& subtracting fractions and decimals. <br> They find unknown quantities in number sentences. | Describe, continue and create patterns with fractions, decimals and whole numbers resulting from addition and subtraction |  |  |  |  |
|  |  | Use equivalent number sentences involving multiplication \& division to find unknown quantities |  |  |  |  |

## Statistics \& Probability

|  | Achievement Standard | Content Descriptor - the student will... | Term 1 | Term 2 | Term 3 | Term 4 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $\begin{aligned} & \text { ষ } \\ & \text { 틍 } \end{aligned}$ | By the end of Year 5 students list the outcomes of chance experiments with equally likely outcomes and assign probabilities between 0 and 1 . | List outcomes of chance experiments involving equally likely outcomes and represent probabilities of those outcomes using fractions |  |  |  |  |
|  |  | Recognise that probabilities range from 0 to 1 |  |  |  |  |

|  | By the end of Year <br> 5 students <br> compare and <br> interpret | Pose questions and collect categorical or numerical <br> data by observation or survey |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| different data <br> sets. | Construct displays, including column graphs, dot plots <br> and tables, appropriate for data type, with and without <br> the use of digital technologies |  |  |  |  |

## Measurement \& Geometry

|  |  | Achievement Standard | Content Descriptor - the student will... | Term 1 | Term 2 | Term 3 | Term 4 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | By the end of Year 5 students use appropriate units of measurement for length, area, volume, capacity and mass and calculate perimeter and area of rectangles. | Choose appropriate units of measurement for length, area, volume, capacity and mass |  |  |  |  |
|  |  |  | Calculate the perimeter and area of rectangles using familiar metric units |  |  |  |  |
|  | $\stackrel{\otimes}{\underline{E}}$ | By the end of Year 5 students convert between 12 and 24 hour time. | Compare 12 and 24 hour time systems and convert between them |  |  |  |  |
| $\frac{\%}{\frac{\%}{0}}$ |  | By the end of Year 5 students connect three-dimensional objects with their two-dimensional representations. | Connect three-dimensional objects with their nets and other two-dimensional representations |  |  |  |  |
|  |  | By the end of Year 5 students use a grid reference system to locate landmarks. | Use a grid reference system to describe locations. Describe routes using landmarks and directional language. |  |  |  |  |
|  |  | By the end of Year 5 students describe transformations of 2D shapes and identify line \& rotational symmetry. | Describe translations, reflections and rotations of two-dimensional shapes. Identify line and rotational symmetry |  |  |  |  |
|  |  |  | Apply the enlargement transformation to familiar two-dimensional shapes and explore the properties of the resulting image compared with the original |  |  |  |  |
|  | $\frac{\frac{y}{0}}{\frac{0}{4}}$ | By the end of Year 5 <br> students measure and construct different angles. | Estimate, measure and compare angles using degrees. Construct angles using a protractor |  |  |  |  |
