

Addition to 12 Bingo—Be the first to cover all of your numbers to win!

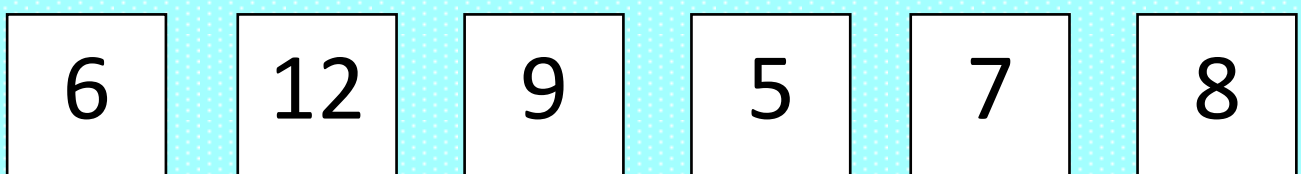

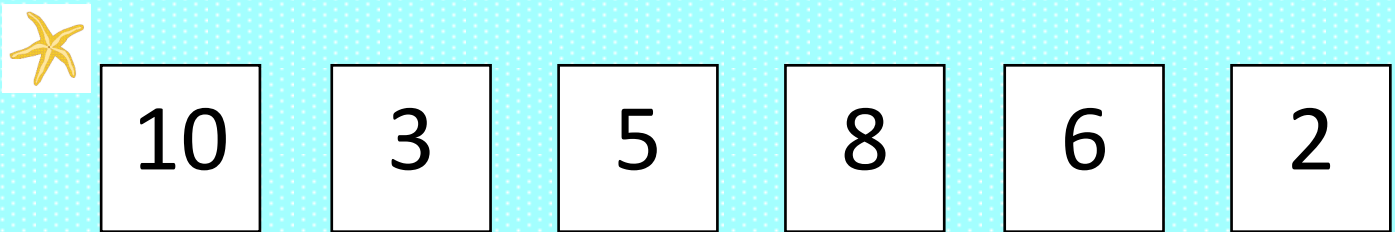

Roll 2 x 6 sided dice. **Add** the two numbers together to find the total, then cover your answer on the board. If it is already covered miss a turn. For Example, *If I rolled the numbers 6 and 4, then 6 and 4 more is 10, so I would cover the number 10.* Take it in turns until you have a winner!
